**Re: Comment Letter, Disposal Water Treatment Filters;
Cross Gold Mine, Permit No. M-1977-410**

Dear Mr. Takami:

On October 9, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received your responses to the Division's letter dated September 10, 2024, regarding the disposal of the water treatment filters. After review of the submission the Division has the following comment.

In Technical Revision 10 (TR-10), approved on April 28, 2022, the Operator committed to providing a memo that would include the full count of filters to be disposed of, the sample results of the TCLP analysis of the material on the filters, and how the filters will be disposed of prior to disposal (Adequacy Review No. 2 Responses, April 26, 2022). The Division expects the information, committed to in TR-10, to be provided **prior** to the filters leaving the site not after the fact. Failure to notify the Division in future may result in the Division initiating enforcement actions.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
