

Notes: Please refer to the 2024 Annual Report Map for the location of areas discussed below.

8. The total disturbance at the mine is 38.35 acres ± and has not changed this year. There are 2 areas considered pre-law disturbance area (purple) that need no reclamation unless re-disturbed, and an old Industrial area (brown) on the west side that just needs grading if mining ends. No new mining was done this year. The following list outlines the various areas of disturbance at the mine in 2023-24 and remain unchanged from last year.

DESCRIPTION	ACRES
Pre Law disturbed area	10.9 (purple)
Industrial area	17.4 (////)
Plant Site	13.9 (brown)
Lake area	12.7 (blue)
Future mining area	0.95 (tan)

9. We continued to removed material from stockpiles in the old plant site area that was previously disturbed.

11. No new area will be disturbed, we may begin to rebuild pit run stockpiles from areas previous disturbed, this winter.

13. The old plant site area has no topsoil nor was any reserved prior to permitting.

15. Only the lake shores created after mining ends will need topsoil. The old Plant Site area does not need resoiling since this area was used as an industrial area since the 1960's and topsoil is not available for resoiling the disturbed areas noted.

17. The SWSP was renewed on September 3, 2024.

19. Current Bond Amount \$16,548.00. The bond evaluated by the Division on 1/24/2020 and determined to be sufficient. No new disturbance has occurred.
