RE: West Fork Gravel Pit, Permit M-2005-069, Incomplete Application for Transfer of Mineral Permit and Succession of Operators, Revision SO-2

Dear Mr. Seymour:

On October 11, 2023 the Division of Reclamation, Mining and Safety received the Application Form for Transfer of Mineral Permit and Succession of Operators from Caerus Piceance LLC to QB Energy Operating, LLC, for the West Fork Gravel Pit, Permit M-2005-069. The following items are incomplete for the application to be processed:

Succession of Operators Application Form:

1. On page 9 of the submitted form, the date (September 24, 2024) doesn't correspond with either notary dates. Please submit revised pages 9 and 10.

Performance Warranty

2. On page 13 of the submitted Performance Warranty ("PW"), the date Roger Biemans executed didn't match the date the notary signed. This invalidates both signatures. Please submit a new PW signed by Roger Biemans and notarized.

Affidavit of Authority:

3. The submitted document left the first two blanks empty; Roger Biemans' name and title should have been entered. This invalidates the signatures. Please submit a new Affidavit of Authority signed by Roger Biemans and notarized.

Please return the required documentation to the Division **before December 16, 2024**. All completed permit documents are required to be submitted for consideration of your Request for Transfer of Mineral Permit and Succession of Operators Application. An incomplete application may be denied after the 60 day submittal request, if requested documents or information are not received. In the event of any delay in your submittal or if you have any questions, please contact the Division.

Please mail all original documents to the address listed here:
