Mr. Girardi,

Paul Bottini made me aware of a letter that they received yesterday (10/18/2024). They received the "Reason to Believe a Violation Exists and Notice of Board Hearing; Alamosa Pit No. 2; File No. M-1983-175". They have not received the inspection report or the bond calculation. I was able to download the inspection report and bond calculation via the Laserfiche system and share them with Paul. We request additional time to process your request. We also request that the operator be provided with inspection report and bond calculations.

Regards,

Ben
