To: "Eschberger - DNR, Amy" <amy.eschberger@state.co.us>

Amy

Sorry to bother you on this again. We learned from the irrigation company (AGRA/CWPDA) that they have an active permit with DRMS M1977573. It is their interpretation that SEMA can complete this work as part of the final reclamation effort allowed under their permit, and SEMA does not need to permit over their existing permit.

Can you please confirm what their engineering consultant is correct.

Thanks - Mark
