OBSERVATIONS

This inspection was conducted as part of the normal monitoring program established by the Colorado Division of Reclamation Mining and Safety's Active Mines Program. The West Equity Project is listed as an active Notice of Intent to Conduct Prospecting Operations (NOI) located approximately 6 miles north of Creede, CO in Mineral County at an elevation of approximately 11,200 feet. Randy McClure, a representative of Rio Grande Silver, Inc. accompanied the inspection. The Division holds a \$34,500.00 Financial Warranty for the site. A reclamation cost estimate was not performed as a result of this inspection.

The NOI consists of 5 newly permitted pads that have not yet been disturbed, 2 reclaimed surface pads and a reclaimed access road. The reclaimed road to pads WE-1 and WE-2 were observed. The road has been graded to an approximate original contour and there are no sign of erosion or instability. Vegetation is well established and blends very well with surrounding undisturbed area. No state listed invasive species were identified in the reclaimed area. The undisturbed pads in the Rat Creek drainage were also observed.

Photos that show the conditions observed during the inspection are included at the end of this report.

No problems or violations were noted or observed during the September 25, 2024 inspection.

All responses to this report should be directed to Todd Jesse with the Division's Active Mines Program at DRMS, Room 215, 1001 E 62nd Ave. Denver, CO 80216. Direct contact can be made at the Division's Grand Junction Field Office, by phone at 720-688-0626 or by email at todd.jesse@state.co.us.
