**Technical Revision (TR-3)**  
**TR-3 Clarification of Disturbance Areas within Permit Area**

Dear Kevin Peart:

On October 24, 2024, the Division of Reclamation, Mining and Safety concluded its review of the Technical Revision application submitted to the Division on September 27, 2024, addressing the following:

TR-3 clarifies the acreages of disturbed areas within the approved permit boundary. Weld County needs an updated accounting of areas approved for mining to inform their permitting process.

The decision reached by the Division is: approve.

The terms of Technical Revision No. 3 approved by the Division are hereby incorporated into Permit No. M-2004-051. All other conditions and requirements of Permit No. M-2004-051 remain in full force and effect.
