Hi Nikie,

Attached I have included photos of a new sign at the entrance of the permitted area. Please let me know if there is anything further, I need to do to close out this action item.

Thank you

Yes, just send me an email close to the deadline and I will extend it.

Have a nice evening.

Nikie

Thank you, Nikie. We will address the items by the required compliance date. If we have to hire a consultant for the weed control plan, would it be possible to request an extension?

Hi Scott.

Please see the attached inspection report for the Bromley Lakes mine site. There are two issues cited in the report that require action within the next 30 days, evidence of a mine sign and the submittal of a weed control plan. Since you will be submitting a Technical Revision for the weed control plan, I recommend reviewing the other items called out in the report and updating the reclamation plan map at the same time. The bank stabilization plan can be submitted later when you are ready to install the rip-rap.

Please review the report and reach out to me if you have any questions on how to proceed with the corrective actions.

Kind regards,

-
