RE: Consideration for Extension Beyond 365 Days
Rolling Hills Gravel Pit – 112 Operation Reclamation Permit Application
MA Concrete Construction, Inc.

Dear Board Members,

Please accept this letter as a request for a 60-day extension after our 365-day decision date of November 29th, 2024, to finalize adequacy review on our 112 Operation Reclamation Permit Application. The reason for our request is because the employee who began the permit process is no longer with our company. Due to heavy workloads and scheduling conflicts, it took additional time for remaining staff to complete the process and respond to the adequacy review comments. Our permit application has been updated and resubmitted for review as of October 18th, 2024. We are confident that our second submittal meets the requirements of the permit application, and we believe that we are close to approval. We would greatly appreciate your consideration in our request for a 60-day extension. Please contact us with any questions or concerns.

Thank you.

Sincerely,

Ivan Geer, P.E.
