Please extend the decision date until December 12, 2024, for adequate review time for the Arapaho Pit M2024-043.

H B Humphries

Good morning Harold,

Regarding the extension you requested, I would recommend extending the deadline a full 30 days from the original date of November 12th just in case we need additional time to review on our end. That would end up being December 12th.

That said, all I need from you is an email stating the permit number and date you would like to extend to for our records and I can get it processed immediately.

Thank you,
Ben

Good afternoon,

May we submit the responses to include the revised maps via email? We will send the revisions to the Jackson County clerk via normal surface mail and get you the green card once we get it back.

In addition, we request we defer the decision date until November 26, 2024, in order to allow time for reviews and comments. We understand the DRMS may make its final decision prior to the extended decision date.

thanks

Good morning Harold,

Thanks for sending those over, I'll wait for the maps and send over any other adequacy items if we have them.

Thanks,
Ben Hammar

Good day,
Thanks for providing the DRMS
comments for the Arapaho Pit
Application.
In your comments you requested we
response to the CDPW comments.
Their comments were not attached
to the email. Please email or send
me those comments to me for our
response.
thanks

Good afternoon Harry,

Please find the attached pre-
operation inspection report and
adequacy review for the
referenced permit.

Feel free to contact me if you have
any questions.

Thank you,
