Harry Corkle Const. Agreement to Compensate Mining Related Damages

The State of Colorado, Division of Reclamation Mining and Safety requires an operator of a mining operation to provide an agreement between the Mine Operator (Permittee) and the Owner of any significant, valuable, permanent man-made structure which lies within 200 feet of any area affected by the mine operation. Alternatively, the Operator may stay 200 feet away from such structures or provide an engineering evaluation which demonstrates the operation will not affect the significant, valuable, permanent man-made structure.

In conducting its mining operation, Harry Corkle Const. will make every effort to prevent damage to your structure. This agreement is intended to ensure you are compensated in the unlikely event mining related damage to the following significant, valuable, permanent structures located within 200 feet of the area affected by the proposed mining operations occurs.

Arapaho Ranch owns the following man-made structure as defined by Rule 1.1(48) of the Mined Land Reclamation Board's Rules and Regulations:

Structures

1. All ranch roads within the permit area and within 200 feet of the affected area.
2. Ranch fences within the permit area and within in 200 feet of the affected area.
3. Arapaho Ditch within the permit and within 200 feet of the affected area.

CERTIFICATION

The undersigned, Harry E Corkle (print name), Owner (print title), Harry Corkle Const. does hereby certify that, Harry Corkle Const. will indemnify the **Arapaho Ranch** for any costs incurred resulting from damage to the above listed structure(s) located on or within 200 feet of the proposed affected area described within Exhibit A, of the Construction Materials Mining Permit Application, **Arapaho Pit** (File No. M2024-043) resulting from the proposed mining or reclamation activities.
