08 November 2024

Dear Sirs,

With this letter, I would like to confirm my request to terminate my Notice of Intent to Conduct Exploration application for the Emjay claim located in Mesa County, Colorado. Because of the extraordinary amount of almost \$10,000 calculated by the DRMS for me to post as a financial warranty bond to reclaim less than half an acre of land disturbance, I find myself in the sad position of abandoning any interest to conduct my small exploration project. As I sent a preliminary check for the bond in the amount of \$2000 to the DRMS on 10 October 2024, I am hopeful that you can coordinate the return of this to me soon.

Respectfully,
Martin Jensen
