With this email I am requesting a 2nd 7 day extension.

I apologize, it fell off my radar. I will work on it this afternoon and plan to get it to you tomorrow.

Hi Joel.

I'm checking in on the North LaPoudre response. The decision date is today. Please send me an extension request so I have time to review the response when you submit it.

Nikie, with this email I am requesting a 7 day extension to prepare the inert fill documents.

Thank you, Joel

Hi Joel.

The decision date for the North LaPoudre Technical Revision is tomorrow, November 7. If you need more time on the inert fill application, please send me an extension request before the end of the day tomorrow.

Hello.

Please see the attached Adequacy Review letter for the North LaPoudre Pit Technical Revision 2. As noted in the letter, an inert fill notice was never submitted for the backfilled pits in the permit area. You'll need to submit an Importation of Fill notice along with a signed affidavit, if fill was brought into the site.

Once you review the letter, feel free to call me if you have any questions.

Best regards,
