Re: Turnpike Mining Resource (M-2004-009) – Request to Extend Due Date to Complete Corrective Action 4. *Seed the repaired slope to reestablish vegetation*

Ms. Gagnon:

Per a 11/14/2024 phone call to inform Kenny Schell that ASCI intends to re-seed his property impacted by the mud flow on Thursday, 11/14/2024 (and Friday, 11/15/2024, if necessary), Mr. Schell indicated that he does not want ASCI to re-seed his property at this time.

Per the “Planting Tips for Grasses” document published by the Colorado State University Extension - Boulder County Extension, the planting window for non-irrigated plantings is October 15 to April 30 (Mountains) and November 15 to April 30 (Plains). ASCI still intends to re-seed the portion of the drainage impacted by the mud flow located on ASCI’s property as planned; however, given that Mr. Schell does not want his property re-seeded at this time, ASCI would like to request an extension to complete Corrective Action “4. *Seed the repaired slope to reestablish vegetation.*” from November 15, 2024 to **April 30, 2025**. ASCI will remain in contact with Mr. Schell until approval to re-seed his property is obtained and documentation will be sent once complete.

Please contact me at 720-322-7055 or GregG@asphaltspecialties.com if you have any questions.

Sincerely,

Greg Geras
