**Re: GCC Rio Grande, Inc., Pueblo Plant, Reclamation Permit No. M-2002-004, Technical Revision 13 (TR-13), Decision Date Extension Request Approval**

Dear Ms. Way,

On November 15, 2024, the Division of Reclamation, Mining, and Safety (Division/DRMS) received your request to extend the decision date for the Technical Revision 13 (TR-13) from November 23, 2024, to February 21, 2025. **The Division hereby approves the extension request of the decision date for TR-13 to February 21, 2025. Please be advised that the decision date will not be extended beyond February 21, 2025. If a response to the Adequacy Review Letter and an Incremental Sampling Method Plan that is satisfactory to the Division is not received by the new February 21, 2025, decision date, the TR-13 application may be denied at that time.**

Please contact me or the Division with any questions or concerns.
