RE: Craig Ranch Pit, Permit No. M-1986-002, Inspection Problem Abated

Dear Mrs. Bartuska:

On September 24, 2024 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Signs & Markers was cited as a problem for failing to post a sign at the mine entrance. Corrective actions required you replace the mine sign at the site entrance by the corrective action date.

On November 19, 2024 the Division received a photo of the mine sign posted on the gate. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell
Environmental Protection Specialist

EC: Travis Marshall, Senior EPS, DRMS
