**Re: Comment Letter, Monitoring Well Installation Report TR-141;  
Cresson Project; Permit No. M-1980-244**

Dear Johan Van Huyssteen:

On October 24, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received the Grassy Valley Monitoring Well Installation Report & Updated Grassy Valley Quality Assurance Project Plan; Technical Revision 141 (TR141). After review of the submission the Division has the following comment.

1. Within Adequacy Review #3, dated March 13, 2024, the Division requested the tables and figures within the Grassy Valley Quality Assurance Project Plan (QAPP) be updated to include the new monitoring well data. The proposed changes in the submitted QAPP exceed this request and will require submission of a Technical Revision to allow for appropriate Division review. Please submit a new Technical Revision to update the Grassy Valley QAPP with the proposed changes and include a summary or redline version to clearly identify the proposed changes to the currently approved QAPP.

Please either provide the Technical Revision discussed above or an updated QAPP with only the TR141 new monitoring well data by **January 6, 2024**. The Division reserves the right to further supplement this document with additional items and details as necessary

If you need additional information or have any questions, please contact me by email at [patrick.lennberg@state.co.us](mailto:patrick.lennberg@state.co.us).

Sincerely,

Patrick Lennberg  
Environmental Protection Specialist
