Review of DMR's 2024 October**

Dear Ms. Miranda Kawcak:

The Division has received and reviewed the October 2024 monthly Discharge Monitoring Reports (DMRs) for the Peabody Sage Creek Mine. The DMRs were received electronically by the Division on 3 December 2024. Thank you for your timely submittal of this information. Peabody Sage Creek Mine submits DMRs to the Division, in accordance with Rule 4.05.13(2)(a)(iii).

Peabody Sage Creek Mine reported the following outfalls discharged in September.

- Pond 2 NPDES 002
- Pond 3 NPDES 003
- Pond 4 NPDES 004
- Spoil Springs 006
- Stormwater 007

Spoil Spring 005 was not discharging at the time of inspection in October. Peabody Sage Creek reported that none of the outfalls required conditional monitoring this period.

The Division does not have any questions, concerns, or further comments at this time. If you have any questions or need additional information, please contact me.

Sincerely,

Robin Reilley, M.S. GISP
