To: "Yeldell - DNR, Amy" <amy.yeldell@state.co.us>

1. Acreage for mag chloride is 1.15
2. Disturbance was done by Dave Mulenburg the owner of the property. Disturbance is outside of the original operational area.
3. The seeding rate in the table is based on 60 pure live seeds (PLS) per square foot for drill-seeding. This is doubled to 120 PLS per square foot for hydroseeding.
For hydroseeding/hydromulching, application of seeds and mulch will be two separate steps.
Our seed application rate will be based off 120 PLS
4. we will be hydro mulching. Mulch rate is 2,500lbs per acre

Hi,

We received your TR request. Just a quick follow up question. Please see the attached letter.
