**Re: Golden Wonder Inspection Report – Corrective Actions Completed (2 of 3)**

Lucas,

As previously reported in my email of 12/02/2024, Here are pictures of the repaired cable gate across the road to 3 Level and of the replaced lock on the 3 Level portal.

As we previously discussed, it may be a little difficult to get someone to pick up the windblown core boxes scattered around the base of the 3 Level mine dump until next season. If nothing else I will do it myself when I come down there to treat water in late spring. Accordingly, we are requesting additional time to get this done.

Hope you enjoyed a great Thanksgiving.

Sincerely,

Kye Abraham, *President*
