Re: M 20211-054 DeBeque Sand and Gravel Resources – Corrective Action
Extension Request

Amy,

During the most recent inspection at our DeBeque Sand and Gravel Resources (M-2011-054), a corrective action required seeding the topsoil piles onsite. The quickly changing winter conditions may hinder the scheduling of a seeding company to complete this project. To allow for successful on-site seeding, we request an extension to complete this seeding until April 30, 2025.

Let me know if you have any questions or need any additional information.

Sincerely,

Jason Burkey
