**Re: Golden Wonder Mine, Permit No. M-1978-091, Inspection Problem Abated, Inspection Problem Resolution Extension Request Approval**

Dear Mr. Abraham:

On September 25, 2024 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Three problems were cited in the inspection requiring photo documentation demonstrating compliance. The problems included trash and refuse, an unsecured portal closure and unsecured chain gate all at the 3 Level Portal Area.

On December 4, 2024 the Division received photos of the secured portal and secured chain gate via email. This satisfies those corrective action and they are considered abated. The documentation also included an extension request for removing the trash and refuse from the 3 Level Portal Area. This notice is also to inform you that your extension request has been **approved**. The new required due date for documentation demonstrating compliance is Monday June 2, 2025.

If you require additional information, or have questions or concerns, please feel free to contact me. Direct contact can be made at the Divisions Grand Junction Field Office, by phone at 303-919-2997 or by email at [lucas.west@state.co.us](mailto:lucas.west@state.co.us).

Sincerely,

**Lucas West**  
Environmental Protection Specialist  
Division of Reclamation, Mining and Safety
