Dear Paul Martinez:

On December 18, 2024, the Division of Reclamation, Mining and Safety received your 110c Construction Materials Reclamation Permit Surety Release Request application for the Ducray Pit #2, which is located in Mesa County. Preliminary review of the information received determined that the following additional information must be received before the Division can consider your application complete and technical review can begin. Thus, your application is incomplete for the purposes of filing as of December 18, 2024.

You have thirty (30) days from December 18, 2024 to submit all necessary documents that the Division needs for the application to be considered filed. If, at the end of the thirty day period, the application has not been determined to be complete and filed, the Division may deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.
