Dear Mr. Van Huyssteen,

As previously discussed with the Applicant on October 1, 2024, and based upon our preliminary review of the referenced permit amendment application, the Division of Reclamation, Mining and Safety has deemed the referenced application as **Complex**, pursuant to Rule 1.1(16). The Office has involved additional professional staff in the review of AM14 and the application is beyond what the Office considers to be a typical review process for the majority of applications received. Pursuant to Rules 1.4.1(7), the Office has extended the review period for AM14 by 60 days, from December 30, 2024, to **February 28, 2025**.
