To: environment-inc@outdrs.net, Robin Reilley - DNR <robin.reilley@state.co.us>

Good Afternoon Mr. O'Brian,

Please find the Division's adequacy review of the 2024 Annual Report for the above referenced DRMS permit. Please direct your attention to the discrepancies in the report that DRMS has brought to your attention.

Thank you

Robin Reilley, M.S. GISP
Environmental Protection Specialist II

RE: Review 2024 Annual Report Tract 4 Grading Project **Permit M2020032**

Good Afternoon,

DRMS has completed reviewing the 2024 annual report for the above referenced permit number. The following questions came up during the review:

For the 2024 reporting year and previous years the report states the permit acres as zero, a discrepancy with the annual report map. The 2024 annual report map could be more detailed for example showing additional information as to the specific location of the site, and how to access the site from the nearest county road or highway.

1. There appear to be discrepancies in the permit and the currently affected acreages.
2. For the 2025 annual report map please use Rule 1.15 as a guide including:
 - A google earth background image
 - A north arrow
 - A distance scale
 - Access road
 - CO or State Highways labeled
 - Section, Township and Range lines and labels
 - Rivers and streams
 - A legend indicating the following polygons
 - ✓ Affected area
 - ✓ Active Mining
 - ✓ Permit area
 - ✓ Reclaimed areas
 - ✓ Topsoil piles

As per the map example included.

Please submit the requested information in the 2025 Annual Report due in August. Should you have questions I'm available to get them resolved.

Sincerely,

A handwritten signature in blue ink that reads "Robin Reilley". The signature is fluid and cursive, with the first name "Robin" and last name "Reilley" clearly distinguishable.
