To: Skylar Hill <skylarfay@gmail.com>, Robin Reilley - DNR <robin.reilley@state.co.us>

Good Afternoon Mr. Curry,

Please find the Division's adequacy review of the 2024 Annual Report for the above referenced DRMS permit. Please direct your attention to the discrepancies in the report that DRMS has brought to your attention.

Thank you

Robin Reilley, M.S. GISP  
Environmental Protection Specialist II

**RE: Review 2024 Annual Report Permit M1998019**

Good Afternoon,

DRMS has completed reviewing the 2024 annual report for the above referenced permit numbers. The following questions came up during the review:

For the 2024 reporting year it was stated that activity has not yet begun and no acreages have been affected since 2022. Please verify that there has been no activity at the site for the years 2022 through 2024. Please, going forward, provide email addresses for the permittee, inspection and permitting contacts in the annual report. The 2024 annual report map is inadequate.

1. For the 2025 annual report map please use Rule 1.15 as a guide and include the following on the map:
  - A google earth background image
  - A north arrow
  - A distance scale
  - Access road
  - CO or State Highways labeled
  - Section, Township and Range lines and labels
  - Rivers and streams
  - The following polygons and associated legend
    - ✓ Affected area
    - ✓ Active Mining
    - ✓ Permit area
    - ✓ Reclaimed areas
    - ✓ Topsoil piles

As per the example included.

Please submit the requested information by in the 2025 Annual Report due in August.

Should you have questions I'm available to get them resolved.

Sincerely,

A handwritten signature in blue ink that reads "Robin Reilley". The signature is fluid and cursive, with the first name "Robin" and last name "Reilley" clearly distinguishable.
