**RE: Collett Property, Permit No. M-2024-012 and M-2022-051, Inspection Problem Abated**

Dear Mr. Abeyta:

On August 7, 2024 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Signs & Markers was cited as a problem for failing to display a mine sign at the permit entrance. Corrective actions required you place a sign and provide photo documentation of such by the corrective action date.

On December 31, 2024 the Division received a photo of the mine sign. This satisfies the corrective action, and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

**Amy Yeldell**  
Environmental Protection Specialist

EC: Travis Marshall, Senior EPS, DRMS
