**Re: Letter of Monitoring Compliance, 2024 Annual Groundwater Level Data,
Wattenberg Lakes, Permit No. M-2004-051**

Dear Mr. Peart:

On January 8, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received the 2024 Annual Groundwater Level Data for the Wattenberg Lakes site, permit no. M-2016-054. Upon review of the submittal the Division has no comments on the data.

In future submissions please include a well location map and the Division requests the Operator remove MW-4 from both future maps and graphs to avoid possible future confusion. In 2024 the Division approved the removal of MW-4 from required monitoring program.

Please note that monitoring data is to be submitted annually with annual report in accordance with commitments made during the initial permitting process.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
