Re: Surety Increase (SI-2), King Pit, Permit No. M-1987-012

Mr. Bottini:

On January 28, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) increased the required surety for this permit to \$300,109 in accordance with Rule 4.2.1. This increase in required surety is based on the September 2024 Inspection. The Division currently holds a Financial Warranty in the amount of \$216,866. Therefore, the resultant surety increase amount is \$83,243.

On this date, the Division orders amendment of the current financial warranty or submittal of a new financial warranty reflecting the surety increase within 60 days from January 31, 2025.

Please make arrangements with Sara M. Stevenson-Benn at the Division's Denver office for submittal of the financial warranty. Any other questions regarding completion, execution and/or submittal of the financial warranty forms should be directed to Sara M. Stevenson-Benn by telephone at (303) 866-3567, or by email at sara.stevenson-benn@state.co.us

The Permittee for this site may be scheduled for a formal board hearing for a possible violation if the surety increase is not provided in full.
