**RE: McClane Canyon Mine, Permit No. C-1980-004
4th Quarter 2024 Discharge Monitoring Reports Review (CO-0038342)**

Dear Mr. Brinton,

The Colorado Division of Reclamation, Mining and Safety (the Division) has finished reviewing the 2024 4th Quarter Discharge Monitoring Reports for the McClane Canyon Mine. The reports were received electronically on November 13, 2024 (October DMRs), December 5, 2024 (November DMRs), and January 29, 2025 (December and quarterly DMRs). The reports cover the period of October 1, 2024, through December 31, 2024. The Division finds the reports to be in compliance with Rule 4.05.13(2).

There are three outfalls associated with the CO-0038342 DMR permit, Outfall 001, Outfall 002 and Outfall 004. During the months of October, November and December there was no discharge recorded from Outfalls 001, 002 and 004. Therefore, no exceedances occurred at these locations.

This concludes the Division's review of the 4th Quarter 2024 Discharge Monitoring Reports for the McClane Canyon Mine. If you have any questions or concerns, feel free to contact me.

Sincerely,

Clayton Wein
Environmental Protection Specialist
