**Re: Foidel Creek Mine (Permit No. C-1982-056)
Minor Revision No. 326 (MR- 326) REVISED
MR326 Exploration Coreholes and Monitoring Borehole**

Dear Ms. Kawcak:

Enclosed you will find the Division of Reclamation, Mining and Safety's REVISED Decision Form for Minor Revision No. 326 at the Foidel Creek Mine. MR-326 did not increase the size of the affected area; therefore, this revised form is correcting the added acreage.

Documentation must be submitted to the Division demonstrating that a copy of the approved revision application was sent to the Office of Surface Mining and the Bureau of Land Management. The material should be sent within 15 days of final approval.

Please refer to the Performance Bond heading on the enclosed decision form. If the amount of Bond Held equals or exceeds the Revised Liability, you need not submit additional bond. However, if the Revised Liability exceeds the Bond Held, please submit additional bond or rider to your existing bond that equals or exceeds the Revised Liability. This Minor Revision must not be implemented until any required increase in bond is submitted to and approved by the Division.

If there are stipulations attached, please sign and return the decision form to the Division.

If you have any questions, please contact me.

Sincerely,

Brock F. Bowles

Environmental Protection Specialist
