PUBLIC NOTICE

2025

#####

The Colorado Division of Reclamation, Mining and Safety (Division) has scheduled a Formal Public Hearing before the Mined Land Reclamation Board (MLRB/Board), pursuant to Rule 5.03.3(3), to address the Order to Show Cause why permit no. C-1996-084 for the Lorencito Canyon Mine should not be suspended or revoked.

The Board will consider revocation of the Permit and forfeiture of the performance bond for the Lorencito Canyon Mine.

The Lorencito Canyon Mine is a surface coal mine consisting of 384 acres.

The Division has determined that a pattern of violations of the requirements of the Act, Rules, and C-1996-084 permit conditions required by the Act exist and that the violations are caused by a failure of New Elk Coal Company, LLC to comply with the Act, the Rules, or the permit conditions. The lands within the permit area are part of the original Maxwell Land Grant which was not surveyed within the scope of the U.S. survey system of public lands. It can generally be described as lands south of the Purgatoire River, southeast of Cow Canyon, northwest of Jeff Canyon, and west of Lorencito Canyon (the eastern boundary is approximately one mile west of the channel of Lorencito Canyon).

The hearing will be held at 1313 Sherman Street, Room 318, Denver, Colorado, beginning at 9:00 A.M. on March 19th or as soon thereafter as the matter can be considered.
