Re: Permit No. M-1980-244; Cripple Creek & Victor Gold Mining Company ("CC&V"); Cresson Project – Notification of Water Quality Analysis February 11, 2025

Dear Mr. Lennberg,

The Cripple Creek and Victor Gold Mining Company (CC&V) hereby provides the Division of Reclamation, Mining, and Safety (Division) with a formal notification of water quality analytical results for well GVMW-26A. As per the Stipulated Agreement with DRMS dated April 25, 2024, CC&V is in the process of establishing appropriate site-specific groundwater standards with the Water Quality Control Division and Water Quality Control Commission. However, notwithstanding this uncertainty, CC&V is providing this notice within the time allowed by Rule 3, Section 3.1.7 (9) of the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations.

CC&V collected January 2025 groundwater compliance samples from monitoring well GVMW-26A on January 16, 2025.

Upon review of received analytical reports, CC&V determined that fluoride was greater than the table value standards and the previously set Numeric Protection Limits (NPLs). Fluoride concentrations over time are included as Attachment 1.

Table 1 below lists results compared to the previously set NPLs and Table Value Standard.

Table 1: Parameter Values

Location	Sample Date	Parameter	Value (mg/L)	NPL (mg/L)	Table Value Standard (mg/L)
GVMW-26A	1/16/2025	Fluoride	2.07	2	2

Should you require further information please do not hesitate to contact Joshua Adams at 719.323.0438 or Joshua.Adams@Newmont.com, or me at 719.851.4048 or Katie.Blake@Newmont.com
