Check if this is a  
new name, address, etc.

Permittee (Company Name): Moffat County Mining

Facility Name: Williams Fork Mine

Mailing Address: 29515 RCR 27 Oak Creek, CO 80467

Facility Phone Number: (970) 870-2718

Permit Certification No. COR-04 0206

Reporting Period: Jan. 1-Dec. 31, 20 24 (Form is due by Feb. 15 of the following

year) **\*\*Each section must be completed. Please print or type.\*\***

- A. *A report on the facility's overall compliance with the SWMP.* (Include here a summary of any measures taken to comply with your Stormwater Management Plan (SWMP), to fully implement it, changes or improvements made in any of your Best Management Practices (BMPs), employee training, spills, other problems encountered, etc. How is your plan working?)

**During the period of January 1, 2024 through December 31, 2024 the Williams Fork Mine was in compliance with the terms and conditions of CDPS Permit CO0034142 along with the terms and conditions conformed by the Stormwater Management Plan (SWMP) developed for this facility. The BMPs, inspections, maintenance activities, and training requirements specified in the SWMP for the Williams Fork Mine facilities were adhered to throughout the year. During 2024 there were no changes to the BMPs, no issues were noted, and no spills occurred. Reclamation at the site was finalized in 2023 with all disturbed acreage are now seeded. No future operations are proposed.**

Were changes made to your SWMP? ☒ No ☐ Yes - Describe changes on a separate sheet.

- B. *A summary of each comprehensive stormwater facility inspection made, including date, findings, and action taken.* (The permit requires at least **two** comprehensive facility inspections per year - see page 12 of the permit. Include here a **summary** of those inspections, plus any other comprehensive inspections made. It is not necessary to summarize day-to-day inspections, unless significant problems were noted.)

First Inspection - Date 6/6/2024. Findings, and action taken:

**The first comprehensive stormwater inspection for 2024 took place June 5, 2024, following a high snowpack winter. Drainages, diversion ditches, berms, vegetation filters, rock check dams, and all other erosions structures were inspected for correct functionality and assessed for winter damage. All structures remained stable. No raw material, chemicals, fuel, or hazardous storage areas remain onsite. No maintenance items were noted during the inspection and the site remains stable. Ponds and ditches are dry for the entire site.**

# STORMWATER ANNUAL REPORT - METAL MINING (& COAL)

Permit Cert. No. COR-04 0206

Second Inspection - Date 9 / 5 / 2024. Findings, and action taken:

**The second inspection event of the year took place September 5, 2023. During this inspection conditions were dry and stable. Several rain events last week with no issues with drainage were observed. All drainage structures were found to be stable and functioning correctly. All structures were inspected, and no maintenance items were noted. All reclamation areas present to be stable with successful vegetation. Weed spraying was performed across the site throughout the summer months. Seeded areas show increase in vegetation. The site is compliant, and no issues were found. Ponds and ditches were dry with little evidence of precipitation.**

Other Inspections - Date   /  /  . Findings, and action taken:

- C. *Results and interpretation of any stormwater monitoring performed. Attach a separate sheet with the lab results. (Monitoring is **not** a requirement under the permit, unless you were specifically directed to do so by the Division. However, the results of any stormwater monitoring that you performed on your own should be reported here.)*

Monitoring Results Attached?       X   No     ☐ Yes

## D. Certification

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."
