

Summit Brick and Tile Co.  
Permit #M-1977-322  
February 14, 2025

Beaver Creek Clay Mine  
2025 Annual Report  
Supplemental Notes

Notes:

Miscellaneous: The mine property arm of Summit Brick Company purchased the lode mining claims directly adjacent to the Beaver Creek Clay Mine. Summit Brick Company plans to submit a conversion application in 2025 to convert Beaver Creek Clay Mine from a 110c permit to a 112c permit to include a portion or all of these lode mining claims. Additionally, Summit Brick is currently working with Amber Pike with the Bureau of Land Management to start the process of expanding the mine on BLM land as well. Summit Brick Company hopes include additional BLM land in the conversion application as well. This conversion application will be submitted in conjunction with the application for expanding the mine on BLM land.
