Hello Harald,

According to the 2025 Annual Report, the last activity at the site was on 4/20/2022. The report also stated that no reclamation of the NOI (0.2 acres) has been completed. The report did state that 0.2 acres will be reclaimed in the next year.

Please be advised that, pursuant to Hard Rock Rule 3.1.3(2) reclamation must be completed within 5 years from the date since prospecting has ceased.

I just wanted to reach out to make sure we're on the same page regarding this requirement for reclamation. Thanks for promptly submitting the Annual Report.

Have a great day,

Chris Girardi

Thanks Chris,

That was the last drilling we did before what we are doing now. I had a local who did the reclamation for Viscount, but he retired in 2023. My guess is we will reclaim the Passiflora shortly after the drilling is completed. We will do the 2P2022 grading and seeding at the same time. This will probably happen in mid to end of March.

Best regards,
Harald
