Nikie, attached is the latest data. I will work on developing a graph for the next submittal. I don't do those very often so it always takes me a bit to figure it out and I know you were waiting on the data.

Hi Julie.

So you can see what was uploaded, attached is the single page we received. One thing I also wanted to mention, we really appreciate it when operators submit a graph with the monitoring data. It's easier to view trends in the water levels. You can put all the wells on one graph.

Thanks for getting back to me and looking into it on your end.

Kind regards,

Hi Julie.

I just got around to reviewing the groundwater elevation data submitted on 11/20/2024 for the Hatchery Pit, permit No. M-2014-043. The data you submitted was a single page that covers the period of 10/31/2018 to 10/2/2023. Do you have data for 2024 that you can send to me for review? I'm wondering if there should have been a 2nd page of data for 2024 uploaded?

Reach out to me if you want to discuss this further.

Kind regards,

2024 Annual Groundwater Level Monitoring Data Acceptance

Dear Ms. Mikulas,

On February 25, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received the revised annual groundwater elevation data submitted by Martin Marietta for the Hatchery Pit. Upon review of the data, the Division has no additional comments. Please note that groundwater data are to be submitted yearly with the annual report, map and fee in accordance with the approved permit.

If you have any questions, please contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by email at nikie.gagnon@state.co.us or by telephone at (720) 527-1640.
