Hi Wyatt.

I reviewed the data submitted in December. We received the graph showing the groundwater levels, however, the data table is missing. Please send me the data that corresponds to the graph. I will go ahead and update the permit system to show you submitted the monitoring data.

I looked at the ePermitting information. It appears you only changed the information for the annual fee notice (see below). If you just want to change the email notification address for permit actions and inspections, log into the account and update the eNotify email.

Neil is listed as the ePermit administrator for all of the Holcim-WCR, Inc. sites. If you want to change that, you'll need to log into ePermitting and submit the change of contact form for the administrator. The instructions for changing contact information start on page 7 of the attached instruction manual.

Hey Nikie,

I provided the groundwater data in the annual report, but attached if you need it again. Why is Neil Whitmer still receiving these emails? I removed him months ago.

Thank you,

Compliance Requirement Past Due

On 02/28/25, Holcim - WCR, Inc. was to submit compliance documentation to the Colorado Division of Reclamation, Mining and Safety concerning Groundwater Level Data. This requirement pertains to the following operation:

Permit: M2004044

ePermit Number: 962225

Operation Name: Tucson South Resource

Requirement Description: As part of permit approval the operator is required to submit yearly groundwater level data

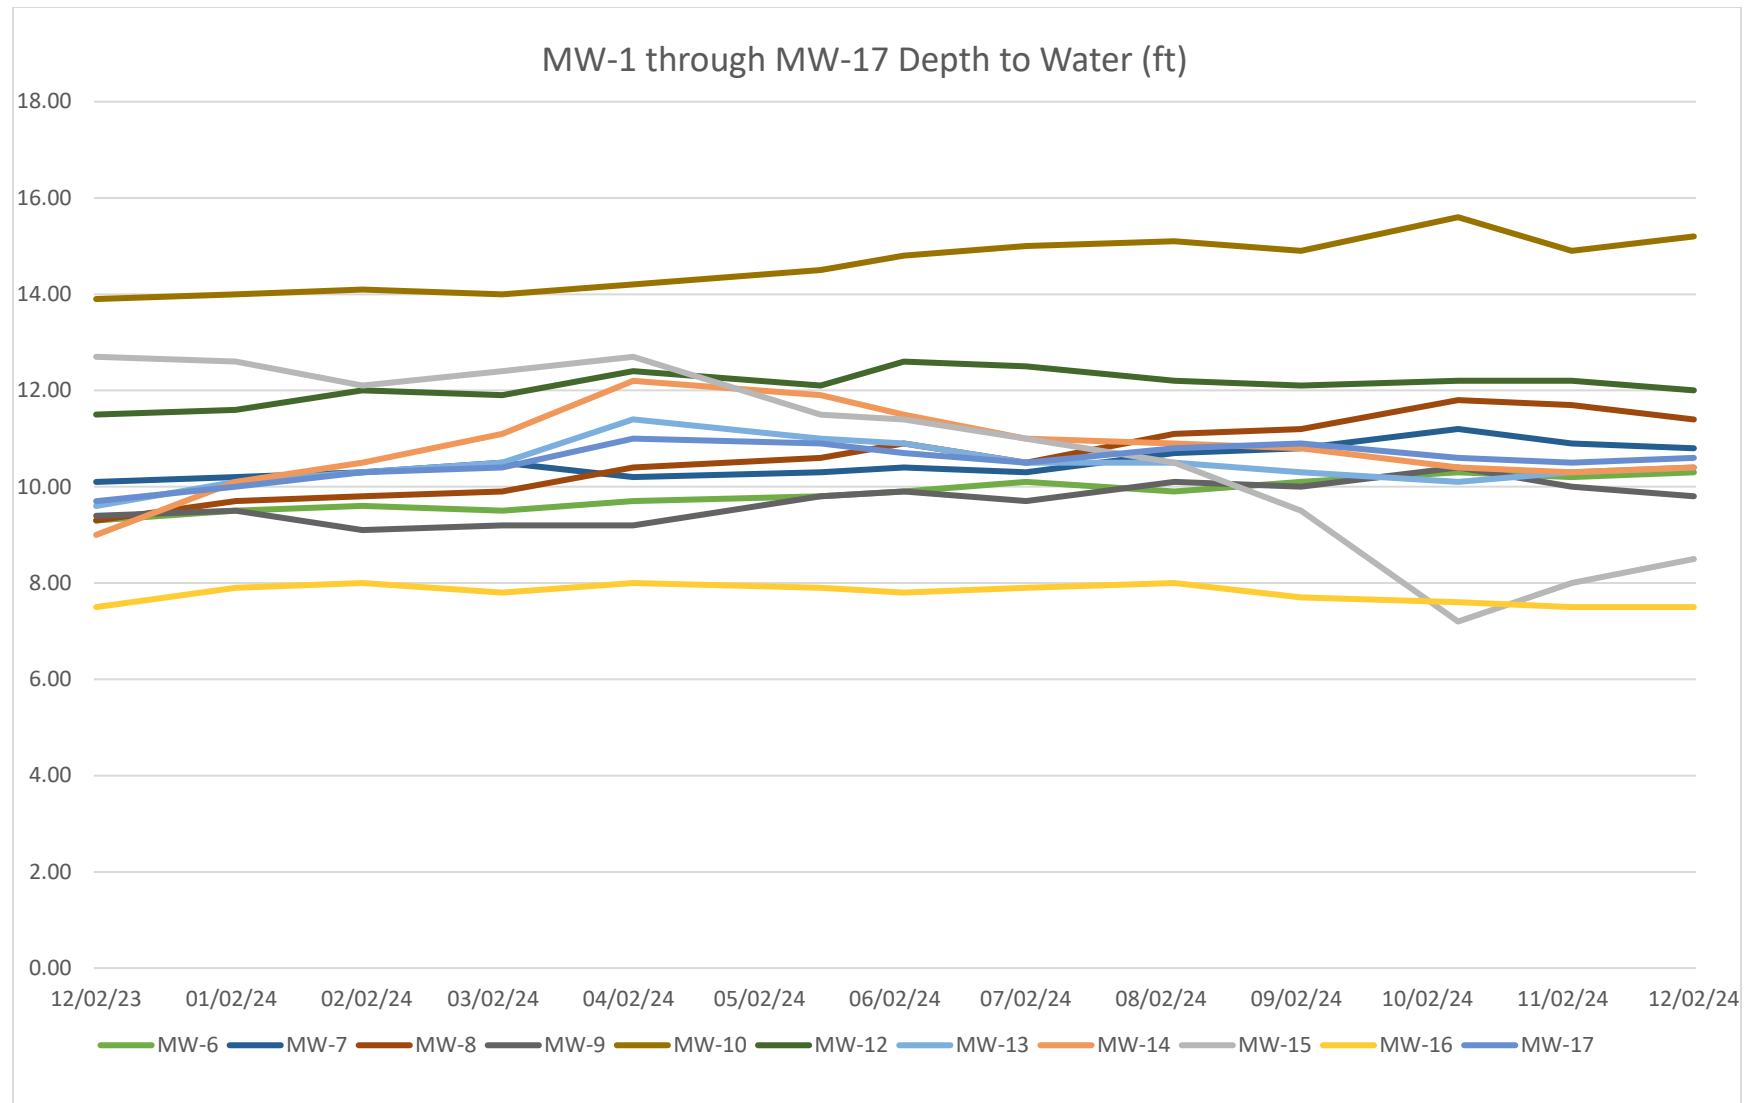

If you have questions about this compliance requirement please contact Nikie Gagnon at nikie.gagnon@state.co.us as soon as possible. DRMS staff may initiate enforcement action if this issue is not addressed in a timely manner. Please submit the required documentation to DRMS.
