**Re: Tucson South Resource, Permit No. M2004044, Annual Groundwater Monitoring Data Acceptance**

Dear Mr. Webster,

On December 19, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received the annual report for the Tucson South Resource site which included a graph of monthly groundwater elevation data for the monitoring wells around the site. Per the approved Groundwater Monitoring and Mitigation Plan, the Operator is required to sample the water levels on a monthly basis for the life of the mine and submit a graph and data table to the Division with the annual report. On March 3, 2025, the operator submitted the required data table for the 2024 monitoring data.

The Division reviewed and accepts the 2024 groundwater data submitted.

If you have any questions, please contact me at [nikie.gagnon@state.co.us](mailto:nikie.gagnon@state.co.us) or (303) 866-3567 Ext. 8126.

Sincerely,

Nikie Gagnon  
Environmental Protection Specialist
