**RE: Preliminary Adequacy Review; Technical Revision No. 1 (TR-1) – Allow for On-Site Processing of Mined Material; Tollgate Pit, Permit No. M-2018-060**

Dear Mr. Clark,

On March 4, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received your request for Technical Revision No. 1 (TR-1) to allow for on-site processing of mined material at the Tollgate Pit, Permit No. M-2018-060. The following clarification(s) or items need to be addressed to the Division's satisfaction.

1. Pursuant to Rule 6.4.13 - Other Permits and Licenses, please provide a statement identifying any new or revised permits, licenses or approvals the Operator holds or will be seeking to process material at the site, including but not limited to any county zoning and land use permits, city zoning and land use permits, and air quality emissions permits.
2. Please state if the scale-house will be permanent or mobile for evaluating whether there are any bonding implications.
3. It was noted during the 2021 inspection the installed slurry liner was undergoing a 90-day leak test. Please provide a statement on the results of the leak test and any relevant documentation from the State Engineer's Office.

This concludes the Division's adequacy review of your revision application. The Division reserves the right to further supplement this document with additional adequacy items and/or details as necessary.

The decision date for your application is set for **April 3, 2025**. If additional time is needed to respond, an extension request must be received by our Office by the decision date. If on the decision date, outstanding adequacy items remain, and no extension request has been received, your revision may be denied and the file terminated.

If you need additional information or have any questions, please contact me by email at [patrick.lennberg@state.co.us](mailto:patrick.lennberg@state.co.us).

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Lennberg". The signature is stylized with a large, looped "L" and a cursive "G".
