Hi Chris,

Attached is a photo of the steel plates I had the driller weld onto the light plant to minimize light noise. The depth we are drilling you have to drill 24 hrs/day. Drilling at night requires lights by the federal and state regulators. This afternoon we stopped the drilling due to drilling engineering problems. The hole is at around 3,750 feet.

Harald

Hello Harald,

Sounds good, thanks for the update.

Have a great weekend,

Chris Girardi
