Re: Glacier Rock, Permit No. M-1994-096, Technical Revision (TR-2), Adequacy Review

Dear Mr. Regan:

The Division of Reclamation, Mining and Safety (Division) has completed its review of your February 26, 2025 request for a Technical Revision (TR-2) for the Glacier Rock site in Larimer County. The current decision date for the application is set for **March 28, 2025**

The Division has identified the following adequacy items in the application which require clarification or additional information:

1. Since Civil Resources, LLC is not recognized as a party authorized to make changes to the Glacier Rock permit, the Division will require an affidavit letter from the Glacier Rock company designating Civil Resources as a party authorized to represent the permit. Ideally, this affidavit should be printed on Glacier Rock company letterhead and signed by the permittee.
2. The permit number listed in the application is “M-1996-096”. The Division has the Glacier Rock site filed under permit number “M-1994-096”. For the Division to maintain accurate records, please update all future documents to DRMS to include the accurate permit number.
3. The application refers to several attached documents, but the Division was unable to find those attachments. The only attachment we have is the Exhibit C Mining Plan Map sent as supplemental to the application. Please provide the following documents:
 - a) Exhibit D Mining Plan
 - b) Exhibit F Reclamation Plan Map
 - c) Lease Agreement with Castle Rock Construction of Colorado, LLC

This letter shall not be construed to mean there are no other technical deficiencies in your application. Please be advised that the decision date is **March 28, 2025**. If you are unable to satisfactorily address the comments in this review before the decision date, it will be your responsibility to request an extension of the review period. If there are outstanding issues that have not been adequately addressed

prior to the end of the review period, and no extension has been requested, the Division may deny this application.

If you require additional information, or have questions or concerns, please feel free to contact me by phone at (720) 812-2002, or by email at joel.renfro@state.co.us.

Sincerely,

A handwritten signature in blue ink that reads "Joel Renfro". The signature is written in a cursive, flowing style.
