**RE: Need for State Reclamation Permit, Bondad U Store, LLC, File No. M-2025-006**

Dear Mr. Barton:

On January 21, 2025 the Division of Reclamation, Mining and Safety (Division) received your correspondence responding the Division's inquiry, RE: "Is It Mining". The Division has assigned file number M-2025-006 to this project. Initially the project proposed to remove excavated material from the site and therefore the Division determined that a reclamation permit was required as stated in the Division's letter sent on January 23, 2025.

The correspondence received from Wasteline Inc. on February 15, 2025 stated that no material will leave the site that is owned by Bondad U Store, LLC. If there is no deviation from the activities proposed in the February 15, 2025 correspondence a reclamation permit will not be required by the Division at this time. However, other local, state, or federal permits may be required and it is recommended that you contact those agencies for further clarifications if you have questions. Please be advised that this opinion is being offered based on the information provided in your response. **Any significant deviation from the described activity, including removal for sale or trade of any excavated materials from its natural state could result in a review and possible reversal of this opinion.**

If you have any questions please contact me at (970) 433-8281, otherwise we look forward to working with you through the permitting process.

Sincerely,

Travis Marshall  
Senior Environmental Protection Specialist
