RE: Longmont Distel Operations, File No. M-1989-029, Technical Revision (TR-06)
Mining Plan Update

Mr. Lennberg,

Holcim is proposing to update the Exhibit D Mine Plan for the Longmont Distel Operations to reflect current conditions after several acreage reduction releases. In addition, we are requesting to update stockpile areas to include the Southeast corner where the former tank battery was previously located. Stockpiling in the corner will consist of washed aggregate to prevent residual dust blowing onto the adjacent neighbor and a minimum setback of 200 feet from adjacent buildings.

If you have any questions, please feel free to contact me at 702-379-4623.

Sincerely,

A handwritten signature in black ink, appearing to read 'Wyatt R. Webster', written over a horizontal line.
