RE: Permit No. M-2016-054 - Irwin Thomas Mine
Technical Revision 3 – Cells 4 & 5 Merger

Mr. Lennberg,

Holcim seeks to combine cells 4 and 5 (henceforth to be referred as Cell 4) to facilitate a more efficient and timely mining sequence. By combining Cells 4 and 5, Holcim will be able to mine the southern portions of Cells 4 and 5 at the same time, allowing the current site access and electrical infrastructure to remain in place. Combining Cells 4 and 5 will also facilitate a faster reclamation process along the southern portions of Cells 4 and 5 adjacent to residential landowners.

If you have any questions, please feel free to contact me at 702-379-4623.

Sincerely,

A handwritten signature in black ink, appearing to read 'Wyatt R. Webster', written over a horizontal line.
