Mar 23, 2025

Jocelyn Carter,

We wanted to share this Letter of Commitment concerning our Regular Inspection Report received on March 3, 2025. The report indicated two issues (1) the availability of records, and (2) financial warranty. As discussed in email correspondence, we feel that it is important to update the records.

However, such an action will take time, so we will continue to work on it with regular correspondence with you while we continue to make updates for the records. I thank you for the resources you provided this past week, and we will continue to work with them. However, the size of the update may cause us to go past the date of April 2nd, especially with other commitments this time of year. We will continue to work with you on getting updated records and a proper Technical Revision in place with the updates. Our target date is to have everything completed by **May 1, 2025**.

Thank you for your consideration, and we will continue to be in touch.

Thank you,

Albert Lionelle, PhD
