Mr. Joseph E. Lionelle  
US Soil Conditioning Company  
P.O. Box 926  
Salida, CO 81201

**RE: Maverick Placer, Permit No. M-1979-206; Problem Abatement Notice**

Dear Mr. Lionelle,

On March 23, 2025, the Division of Reclamation, Mining, and Safety (Division/DRMS) received the corrective action for a problem cited in the March 3, 2025, inspection report. Problem #2 of the inspection report was cited due to the updated calculated financial warranty exceeding the currently held bond of \$32,500.00. The letter received is a Letter of Commitment to submit a revision application to update the permit file and provide more clarification for the mining and reclamation plans for this operation. With this revision, a more accurate reclamation cost estimate will be calculated.

**The Division accepts the commitment to submit a revision to the permit file and considers Problem #2 of the March 3, 2025, inspection report abated. Additionally, the Division approves the due date extension request for the submittal of the revision from April 2, 2025, to May 1, 2025.**

If you have any question, please contact me by email at [Jocelyn.carter@state.co.us](mailto:Jocelyn.carter@state.co.us) or by phone at (720) 666-1065.

Sincerely,

Jocelyn Carter  
Environmental Protection Specialist
