RE: Gunnison River Gravel Pits, Permit No. M-2009-048, Inspection Problem Abated

Dear Mr. Loncarich:

On February 12, 2025 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Backfill and Grading was cited as a problem for settling and surface cracks. Corrective actions required you regrade the pond slopes, rip and recompact prior to revegetation by the corrective action date.

On April 8, 2025 the Division received photos and a summary of work performed on site. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell
