RE: Fremont Gravel Pit M-1984-117 TR-1, Adequacy Review

Dear Jocelyn,

In response to your adequacy review letter dated April 10, 2025, we are providing the following answers:

- Item #1: The stockpiled materials will be removed prior to any reclamation of the affected lands. We do not anticipate reclamation operations in the near future, as we are a long ways off from beginning reclamation. We are not intending to use any of the stockpiled material to backfill during reclamation activities once that process begins.
- Item #1 c.: A signed affidavit certifying the stockpiled material is clean and inert in accordance with Rule 3.1.5 (9) (c) is included in this response. We will not be backfilling with imported material, we are only storing non-toxic material at the site.

Should you have any questions, feel free to contact us at: 719-276-7430 or via email at: scott.hileman@fremontcountyco.gov, Annette.reed-pugh@fremontcountyco.gov, or Michael.whitt@fremontcountyco.gov.

We look forward to hearing from you soon!

Respectfully submitted,

Annette Reed-Pugh
Office Administrator

RE: Fremont Gravel Pit M-1984-117 Technical Revision

Dear Jocelyn,

In response to the information needed from us to accompany our technical revision application as referenced above, Fremont County will not be storing or stockpiling any material at this gravel pit that is acid-forming or toxic in nature.

Our intention is to stockpile roadway material from and for our roadways, to include culverts, cattle guards, guard rails, tree limbs/branches, fill material, and concrete. We will keep the stockpiles separate from each other and maintain in an orderly manner.

Should you have any questions, feel free to contact us at: 719-276-7430 or via email at: Michael.whitt@fremontcountyco.gov; scott.hileman@fremontcountyco.gov, and Annette.reed-pugh@fremontcountyco.gov.

We look forward to hearing from you soon!

Respectfully submitted,

Michael Whitt
DOT Director
