Elliott –

Pursuant to the commitment outlined in TR-144 Adequacy Review #2 and in accordance with DRMS Rules 7.3.1 and 7.4.2, this message serves as notification that construction activities associated with the ECOSA Seepage Collection Improvements are scheduled to commence the week of April 14, 2025. Initial activities will include site survey and layout work, with earthwork to follow, marking the beginning of construction.

Additionally, CC&V will provide a separate notification to the Division in advance of the liner installation, which is currently anticipated to occur in May.

Please let us know if any additional information is needed at this time.

Best regards,

Tony
